#### **RNS - GFX V2 PRO x1 unit**

*(Cap, Trip & Speed-1,2 or 3 functions on screen- Built in GPS antenna)*

#### **RNS - GFX V2 PRO x 2 units**

#### **RNS - 3 Button Switch**

*Switch controls: Trip & Settings of 1 unit*

#### **RNS - 5 Button Switch**

*Switch controls: Trip & Settings of 2 units*

#### **NOTES:**

- 1 KR XX21 requires all entrants to have a minimum of a Garmin Etrax 10 or better.
- 2 **RNS-GFX V2 Pro CAP Repeater** can be synced with most Garmins (Optional cable is required).
- 3 Cap Repeater unit is highly recommended in front of Nav and the Driver, so that the driver maintains Cap bearing with the Nav.
- 4 Any Garmin GPS can also be used for Cap Headings, however digits are much smaller
