

KR-XX21 STAGE DESCRIPTIONS

GENERAL STAGES INFO

1. More Service points in SS(Special), allows Crews more mechanically support
2. KR-XX21 will have more Cap confirmations at Mx intersections.
3. Tulips 100m or less are combined as 1 Tulip
4. Auto/SXS : Seed netts will be needed for Stages:3,4 & 5
5. Auto/SXS: Stage 1, it will be advisable to fit window protectors for the bushy sections
6. More defined clearer tracks were used where terrain allowed
7. Rally will be in areas that no rally in the world can offer, like the Kgalagadi TransFrontier Park and Hakskeenpan world land speed record pan
8. Stage 2 & 5 will be the toughest in KR-XX21!
9. All Bivouacs are reachable by tar road

LIAISONS

Liaisons will be an Adventure on its own!

1. Liaisons will certainly add to the quality of KR-XX21
2. Graded gravel farm roads
3. Sandy sections with some roads that are rough due to all the heavy rains in the areas
4. Some beautiful roads in the Molopo River along the Botswana Border
5. Some sections of the Liaisons could have been used as Specials!
