

SAFETY & TRACKING SYSTEMS

GARMIN 700i-InReach and Mini-InReach Satellite Tracking & Communication Systems

1. ***MOTO:*** Each Moto Rider will use the latest “Garmin Mini-InReach” Satellite Tracking and Communication functionality together with the Geotraq Rally Safety System.
2. With Mini-inReach satellite technology from Garmin competitors can stay in touch globally. They can send and receive messages, track their movement and if necessary, trigger an SOS to get help from a 24/7 global emergency response coordination centre or the Rally Control Centre via the 100% global Iridium® Satellite Network.
3. ***AUTO, SSVs:*** Will receive a Garmin Montana 700i NAV-GPS System with integrated Sat-InReach functionality.
4. The Rental of the Garmin Montana 700i and Garmin InReach Mini is included in the entry fee. Deposits must be paid at the administrative check.
5. 700i & Mini devices will have the following features active:
 - a. Direct satellite tracking in 2-5 minutes intervals
 - b. Use pre-set messages to communicate with the rally control:
 - All OK.
 - Technical Help Request. We are OK, but we need a recovery to come and help.
 - c. Trigger SOS to get help from the Rally Control in case of Medical emergency
6. The Satellite tracking by InReach will be included in the public Live tracking page of the rally for Service Crews & family to follow.
7. ***IMPORTANT:*** Read the operation manual:
